

A sleek, black AquaBarista coffee and water dispenser. The top features a control panel with a touchscreen and several buttons. A K-Cup pod is visible in the brewing compartment. The machine has a large water reservoir at the bottom, a hot water tap, and a cold water tap. The design is modern and compact.

# aqua barista®

The Cooler Way to Brew Coffee

## A coffee brewer and water cooler in one

The ingenious AquaBarista® is a ground-breaking beverage system that combines a single-cup coffeemaker with a bottled water dispenser for the ultimate in convenience and clutter-free allure. Freshly brewed K-Cup® pods along with hot and cold water are available in an instant, all from the unit's five-gallon water bottle, which is housed discreetly in a handy bottom-load compartment.

## Say goodbye to reservoir refills and hello to better-tasting coffee in a flash

- Five-gallon bottle eliminates the hassle of constant water reservoir refills
- Stored hot water is ready to brew when you are
- Bottled water makes better-tasting coffee and does away with tap water concerns
- No filters to buy or replace
- Single-serve system uses your favorite K-Cup® pods (including tea and hot chocolate!)
- Intuitive touchscreen interface is incredibly simple to use
- Three cup sizes to choose from: 8 oz., 10 oz. and 12 oz.
- Included K-Cup® pod holder makes removing used K-Cup® pods easy

## Enjoy better-for-you bottled water, served hot or cold with the press of a lever

- The quickest way possible to get hot water
- Steep tea, whip up a hot chocolate and make instant soup or oatmeal lightning fast
- Cold water is perfectly chilled for grabbing refreshing sips anytime
- Great-tasting bottled water makes staying hydrated and meeting water intake goals easy
- Extra-large dispensing area accommodates drinkware of all sizes, including sports jugs
- Perfect for filling cookware and pets' bowls too!

## Reclaim your countertops and revel in a more organized ambience

- All-in-one unit replaces individual coffeemakers, tea kettles and water dispensers
- Cleared countertops add workspace and a more orderly appearance to your kitchen
- Attractive streamlined design saves room and complements today's interiors

## Pamper your back and make replacement time a breeze

- Clever bottom-load design makes lifting and turning heavy water bottles a thing of the past
- Simply open compartment, remove empty bottle and slide new one into place

### Technical Specifications:

Product Height: 45.172"

Product Width: 12.598"

Product Depth: 13.386"

Product Weight: 33.1 lbs.

Power Rating: 100–115VAC; 60Hz

Power Consumption: Hot 1000W; Cold 70W

Compressor: Single Phase

Refrigerant: R134a (32g)

Cold Reservoir Size: 1.6 Liter

Cold Temperature: As low as 39° F

Hot Tank Size: 1.3 Liter

Hot Temperature: As high as 198° F

#### All-in-One Unit

Replaces individual coffeemakers, tea kettles and water dispensers

#### Child Safety

Child safety lock on the hot water spout to help prevent accidents

#### Bottom-Load Design

No more lifting and turning heavy water bottles

The AquaBarista® is programmed for use of Keurig K-cup® branded products only. Use of pods other than Keurig K-cup® branded products may impede optimal performance of the brewer. K-Cup® is a registered trademark of Keurig Dr Pepper, Inc.
